I seek opportunities in which I can continue to grow as an artist. I have been fortunate to have many challenges and rewards, both intrinsic and extrinsic. Making art and sharing my art is a strong motivation to create in life. Depicting nature through color and movement is fundamental to my work. Beyond sharing art through my eyes, I am always looking to teach fundamentals of visual art with these basic goals: integration of visual art into all aspects of life and the creation of fine art.
